

SUNNY HOME Hi-Capacity Moisture Absorber

If you've ever had household moisture or odor issues, you know the value of pure, clean, dry indoor air. And that's exactly what SUNNYHOME moisture absorber & odor eliminators deliver. Calcium chloride crystals-to neutralize tough odors, eliminate excess moisture and keep your home smelling fresh. SUNNYHOME moisture absorber & odor eliminators are the safe, natural, affordable way to freshen air and remove odors.

Effective Control of Moisture

SUNNYHOME is a useful solution that reduces extra moisture in the air, preventing damage that is usually caused by moisture. It also eradicates odors caused by moisture. It dries the air to an extent where it does not damage plants, furniture or household goods. SUNNYHOME can be used in bathrooms, closets, laundry rooms, bedrooms, offices, kitchens, storage closets, boats or any other place that tend to have excess moisture and stagnant air. This absorber not only diminishes the excess moisture, but also reduces the growth of moisture-borne diseases and insects.

- **Moisture absorber**
- **Reduces growth of mold and mildew**

The moisture absorber is harmless for plants and household items. It also reduces the presence of moisture-borne diseases and insects.

A Closer Look

SUNNYHOME is an effective absorber that can reduce the amount of moisture from the house to prevent damage of furniture and household items. It even diminishes the growth of mold and mildew from the house preventing stains on the furniture and plants.

The characteristics of a product

- Protect large problem areas from moisture damage

- Use in basements, crawlspaces, garages, storage rooms, bathroom, vacation homes, boats & RV's
- Eliminate musty odors caused by excess moisture
- Attract and trap excess moisture in your space

- Spill resistant safety cover

HOW IT Works

Phase One:

Remove lid and peel off foil cover leaving white safety cover in place. Replace grill lid.

Phase Two:

Place on flat surface in desired location. Crystals will harden and dissolve in up to 45 days.

Phase Three:

When the crystals have completely dissolved, discard in the trash.
