# ADDING TRUST TO THE BEAUTY

## THE BASIC OF BEAUTY AILIN PLASTIC SURGERY

The AILIN PLASTIC SURGERY is

a hospital(clinic) opened by the former representative director of RUBY PLASTIC SURGERY, Dr. Kim, Myeongcheol.

Based on the belief of a plastic surgery loyal to the basics, our biggest ideology is to be a 'TRUSTWORTHY HOSPITAL' by performing safe surgical procedures and bringing highly satisfactory results.

To offer to our clients the best medical service and definitive results,

our AILIN PLASTIC SURGERY is running a high-tech medical equipment and a system with exclusively appointed field specialists.

We have Anesthesiologist who resides to ensure patient safety at all cost.

Also, we strive to lead globally the technical skills and knowledge of the Korean plastic surgery through the interaction with overseas medical staff.

We, the AILIN PLASTIC SURGERY,

will always do the best to become the exemplary plastic surgery hospital using our years of operation know-how and outstanding sense of beauty.

# MEDICAL COOPERATION TECHNICAL PARTNERSHIP AND OVERSEAS EXCHANGE ACTIVITIES WITH MEDICAL STAFF OF THE WORLD

The excellent plastic surgery skills of ALLIN is being recognized internationally and medical staff overseas who show interests in our skills are visiting constantly to assist to live demonstrations and trainings.

We offer medical service of the best quality and high satisfaction by the 1 on 1 consultation and the precise operation procedure with a Professional Medical Staff for each specialty as eyes, nose, breast, facial contouring, etc.

We own 3D-CT, Air sterilizer, Self-generated power system, Uninterruptible power supply, Cardiac defibrillator (Automated External Defibrillator), etc

We have established High-tech medical equipment to perform a safe surgical procedure and make the correct diagnosis.

Through systematic examination and consultation before surgery, we offer exclusive 1:1 anesthesia system adapted to the patient and our Anesthesiologist resides in standby to make every effort to the safest surgical procedure.

**100% Reservation  
appointment system**

We run 100% reservation system to reduce the unnecessary waiting time for consultation, operation, progress, treatment of the client. At the time of the reservation we provide the best medical service only for the client.

**A Hospital that Investigates**

Through continuous research in each field, we strive to give the best results to our patients. We have developed a variety of unique surgical methods to show more satisfactory results.

**A hospital trusted by the client**

In an event that identifies the customer preference which is selected by the customers itself, AILIN won the prize of The Brand most trusted by the customer for the 3 consecutive years as being recognized for the AILIN's unique plastic surgery skills and medical services.

**Premium post-operative system**

From simple eye and nose surgery to breast and contouring surgery, we provide systematic follow-up care system for quick recovery of the patient and help return to daily life through supplement called 'Vital Care' which restores hormone balance to normal.

Without scarring! Big and Definite!

## Clear(\*transparent) Canthoplasty

Learn AILIN' s CLEAR Series by type

01

### Clear epicanthoplasty

Removing the “Mongolian Fold” that covers the inner corner of the eye, Wide and Clear Eye shape is DONE!

02

### Clear lateral canthoplasty

Opening the outer corner of the eye matching the eyebrow ridge and extending the width, Big and Wide Eye shape is DONE!

03

### Clear Multi-canthoplasty (lateral + lower - canthoplasty)

In case that the lateral canthoplasty is not enough, opening the lateral and lower part of the outer corner of the eye, Big and Wide Eye shape is DONE!

04

### Clear 3D-canthoplasty (epi + lateral + lower - canthoplasty)

For a definitive image transformation of the eyes, Bigger and Clearer Eye shape is DONE!

Clean Eye Shape without marks

## **Clear canthoplasty POINT!**

**/Just Perfect with the Clear Canthoplasty!**

With Microscopic incision of the conjunctiva line the scar is almost invisible and there is no worry about side effects such as tissue alteration and overcorrection, etc.

**/NO worries of adherence!**

With the delicate skin suture skills of our Director Surgeon it is possible a canthoplasty without adherence.

**/Big and Wide Eye Shape!**

Opening the blocked space, it is possible to transform into a natural and wide Eye.

AILIN' s Natural Adhesion

The difference of breast surgery skills,  
makes the difference of the result!

## AILIN' s Allergan Mammoplasty

By reducing the risk of side effects using genuine Allergan implants,  
and by personalized breast molding through know-how, we aim at premium breast surgery.

### AILIN Mammoplasty, We eliminated 4 things!

**Blood Bag** By the precise surgical design and sophisticated surgery with years of know-how,  
the amount of bleeding is insignificant that does not require a blood bag.

**Massage** By using texture implants that doesn' t require massage,  
there is no need to do any cumbersome massage

**Scar** With minimal incision and the use of tissue adhesive instead of stitching,  
we aim to a breast surgery with no worries of scars

**Capsular contracture** Fast and precise operation reduces the exposure time in the air  
and reduces the possibility of inflammation and Capsular contracture

## Breast Surgery

### Why must be AILIN PLASTIC SURGERY?

Selection of Implants  
by Brand  
depending  
on body type

Use of FULL HD endoscope  
that makes possible a  
visual inspection of nerve,  
blood vessels

Use of the Implant  
Sizers to choose the  
right size  
for body shape

Minimized incision  
Use of the Aseptic Keller  
Funnel approved  
by the FDA

It is possible a faster  
daily life.  
Use of a dermabond  
to suture without stitching
