

# ORGAVALLEY

Nature's present for your skin  
OV In Nature 24  
Soft, Moisturizer & Silky Look  
Skin Care Solution

## Skin Science from Nature

A great balance of natural ingredients and traditional fermentation with the modern nano-technology.

THECOSMEDIUM has engaged in a long-time research to avoid the factors threatening the human's life and disturbing the ecosystem and as a result, we finally successfully developed a new technology in application of nanoparticles from high organic molecular compounds, using the "special enzyme method"; therefore, we could launch eco-friendly and highly functional cosmetics in convergence of the traditional fermentation and the advanced nano-technology for natural ingredients.

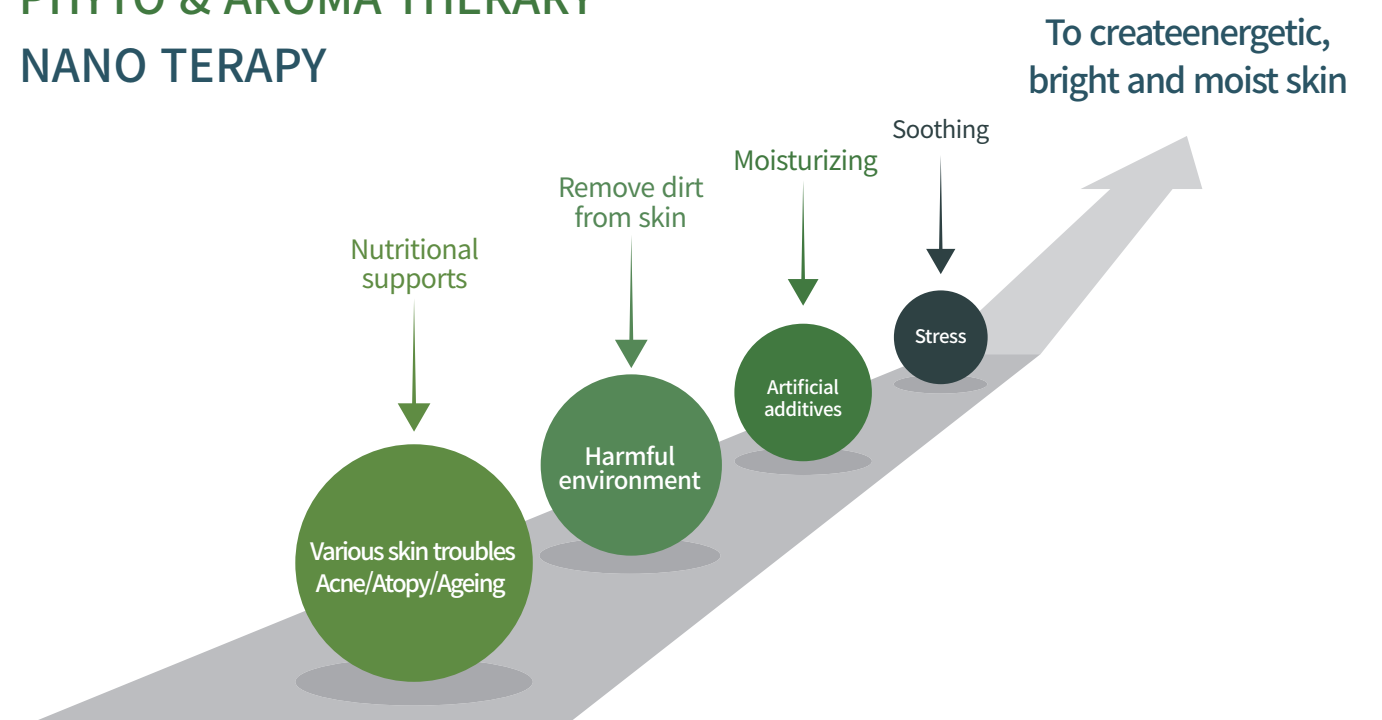

## NO Chemical Ingredients

Premium natural cosmetics with over 24months fermentation!

ORGAVALLEY was born with ancient remedy. This premium natural cosmetics contains essence of state of the art natural ingredients. To keep promise of high quality natural cosmetics, ORGAVALLEY keeps the following principle.

No Alcohol, No Surfactant, No Preservatives,  
No Artificial Colorant , No Petroleum-based ingredients

## Comparison of Ingredients

### ORGAVALLEY

Free from chemicals including synthetic coloring or perfume that becomes a causing factor of skin trouble, as well as chemical surfactant and preservative that removes the natural properties

#### Key ingredients

Chamomile(Herb) : Sterilizing and soothing, alleviating allergy, antiseptic, purification, refresh, neutralizing the skin irritation without causing acne in skin

Soybean Oil : A calming and soothing oil that contains lecithin and sterol, vitamin A,E, and K

Olive Oil : It contains very strong antioxidant ingredient; therefore it prevents free-radical activity Causing the disease and ageing. It also reduces the bad cholesterol level.

### Other General Cosmetics

Mixed and used about 20 to 50 types from currently available 5,000 types of chemical substances including emulsifier, germicide, preservatives, coloring, synthetic perfume, etc.

#### Key ingredients

Surfactant : It is considered one of factors taking lipid from the skin or causing roughness and eczema in skin. it also may cause liver damage

Coloring : Mainly uses the tar color extracted from oil, which is commonly known as carcinogenic

Preservatives : Added to prevent the decays of product due to chemical variation; the carcinogenetic substances, Such as salicylic acid phenol, etc. are used

Synthetic Paraben preservatives : It prevents the bacterial growth to maintain cosmetics in fresh condition but when it absorbs into human blood, it is built up the internal organs and muscles to cause breast cancer in women
